

Reduce International Fee

Proposed by: Aditya Mehan

Seconded by: Sanchit Jain

What do you want?

COVID-19 has had a negative impact on the student finances, and families outside the UK have had no State support and had to pay for the Tuition fee from their saving. Therefore, we want the University to rescind the increase fee and charge less for the second semester and the academic year 2021/22.

Why do you want it?

It was quite inhumane to increase the already exorbitant Int'l fee even more in the time of the pandemic. It was a ill thought off decision which has had a negative impacts on Int'l students most of whom are not even in the UK.

What impact will this have?

This will bring a sigh of relief to many families and students who are struggling financially in this pandemic (we all don't have Mr. Rishi Sunak as our Finance Minister)
